## EDUCATION

---

### Delhi Technological University (DTU), Delhi, India

Bachelor of Technology (B.Tech) in Computer Science and Engineering | **CGPA: 8.3/10.0** | Expected: May 2029

## TECHNICAL SKILLS

---

- **Languages:** C++, JavaScript (ES6+), Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Vite, Responsive Design, Component Architecture
- **Backend & Databases:** Node.js, Express.js, RESTful APIs, MongoDB, Mongoose
- **Tools:** Git, GitHub, Postman, VS Code
- **AI / Emerging Tech:** LangChain Fundamentals, Generative AI, Prompt Engineering
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving

## TECHNICAL PROJECTS

---

### Zerodha Clone — Full-Stack Investment Platform | React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed a full-stack investment platform inspired by Zerodha using React.js, Node.js, Express.js, and MongoDB.
- Built interactive React.js dashboards for watchlists, holdings, positions, and order-related data.
- Implemented RESTful backend APIs with Node.js and Express.js for account and order workflows.
- Designed MongoDB/Mongoose schemas to store user, holdings, positions, and transaction-related records.

### Job Application Tracking Portal | React.js, Vite, Node.js, Express.js, MongoDB, REST APIs

- Developing a full-stack job application platform for job postings, candidate submissions, and application tracking.
- Built a responsive React.js and Vite interface with reusable components for job listing workflows.
- Implemented Express.js REST endpoints and CRUD operations for job listing data using MongoDB.

### Predictive Machine Learning Pipeline — Team Project | Python, Scikit-learn, Pandas, NumPy, Git

- Collaborated with a student team to build and evaluate a predictive machine learning pipeline in Python.
- Performed data preprocessing, feature engineering, and exploratory data analysis using Pandas and NumPy.
- Contributed to model training and evaluation using Scikit-learn.

## PROBLEM SOLVING & CODING

---

- **DSA:** Solved 150+ problems on LeetCode and GeeksforGeeks covering Arrays, Strings, Recursion, Dynamic Programming, Trees, Graphs, Searching, and Sorting.
- **Core CS:** Applied Object-Oriented Programming in C++ to develop modular and reusable problem-solving solutions.

## LEADERSHIP & ACTIVITIES

---

### Tech Co-Head | RoundTable, DTU

- Lead technical initiatives, coordinate technical activities, and support hands-on learning sessions.
- Collaborate with student members on technical execution and full-stack development initiatives.

### Member | DelhiTech MUN Society, DTU

- Participate in society events, committee debates, and student activities.
